

## A NEW CONCEPT

### PRESENTATION

Stéphane de Gérando creates digital paintings in computer generated pictures. In this case, the artwork is no more « fixed » but in perpetual movement, still the same and different at the same time, changing to modify the perception of an interior design, between design object and reinvented creation.

### PURCHASE OR ORDER OF THE WORKS

The works – produced in limited editions - are bought by institutions, private individuals or companies (see the galleries and purchase on [degerando.com](http://degerando.com)).

In case of order of an original painting, the works answer to specifications to fit onto a particular interior or event.

### REQUIRED EQUIPMENT

The technical installation is simple :

- Plasma or LCD screen or video projector
- DVD player or computer (MAC or PC)
- Speakers (if a musical creation is associated)

### QUALITY OF THE PICTURES

The pictures are created with the latest HD digital technologies. They can also be adapted to every kind of broadcast systems.

## STEPHANE DE GERANDO

### BIOGRAPHICAL NOTE

Stéphane de Gérando is a multimedia artist who develops his work from computer generated pictures and sound. He has received the highest distinctions in the composition field (First Prize and 3<sup>o</sup> cycle First Nominated of the Paris conservatoire, International Prize of the Darmstadt Festival), he is also Doctor of the Universities and Authorized to supervise the research, researcher specialized in the digital synthesis. ### INSTALLATION

The installation of the work is the object of a specific programming according to the wishes of the customer : continuous broadcasting of the painting, setting off at a set or randomly hour, normal or inverted movement, random splintering of the work...

The broadcasting fits onto the customer's equipment (screen, computer, DVD player) or we can also propose a specific material installation.

The software installation is totally carried out by us and we can also manage the equipment installation.
